

Beatrice de La Masseliere

Semi Retired Finance Director

ABOUT

International and multicultural semi-retired Executive, with Strategic leadership, Board exposure and Corporate finance experience. I developed my career within 3 main industries, IT services & New Technologies, Healthcare and Supply chain within mostly US Groups as well as French Groups to a lesser extent. I lived and worked in France, Italy and the UK.

I have been part of an Executive team for 10 years before retiring in 2019, acting as Managing Director in the last 12 months of my career, defining and contributing to strategies and ensuring objectives are implemented in line with the Company vision.

I have been mentoring and supporting young professionals and students for several years helping them in clarifying their objectives, identifying their professional options and progressing, changing or building their career. Through mentoring, I share my experiences and the challenges and opportunities I have gone through. And also, I enjoy learning from my mentees so much. Mentoring for me is a two way process of giving and receiving.

I AM LOOKING TO MENTOR

Young professionals and students in clarifying their objectives, identifying their professional options and progressing, changing or building their careers. I help educate students in improving their English skills, understanding better and speaking spontaneously without fear.
