

Smriti Sonam

Digital Transformation Expert & Transformation Coach

ABOUT

I am a digital transformation and technology expert who works at the intersection of smart technology, strategy, and processes engaging stakeholders across industries globally. I have broad project and product management experience and I am currently leading digital services and digital product portfolios in the energy sector. I enjoy sharing my experiences and creating growth opportunities for others. I have served as an advisory mentor to The Queen's Young Leaders Program at the University of Cambridge in the UK and I also serve as an Economic and Social Council representative at the United Nations as the Co-Chairperson for the "Changemakers: Human Rights Council" initiative at the United Nations in Geneva. With over 15 years of experience, I have provided services across several industries including banking, wealth and investment, biotechnology, e-commerce, travel technology, education, public services, and oil and gas, among others. Underpinning my leadership style is innovative vision, creative management, and social engagement.

I AM LOOKING TO MENTOR

My goal is to help the mentees discover and cultivate their innate leadership abilities, identify and overcome obstacles preventing professional achievement, and motivate them to take purposeful steps to build the rewarding career and life they have envisioned.
